Attorney General John Ashcroft  
US Department of Justice, 950 Pennsylvania Avenue, NW  
Washington, DC 20530-0001

Dear Mr. Ashcroft:

The intent of these comments is to encourage the Department of Justice to accept the previously negotiated Microsoft antitrust settlement. I have used Microsoft products for the past 20 years. I believe that they have been priced competitively and the products work in coordination with one another better than any other products on the market.

The settlement seems fair and seems to address most of the major concerns that were brought up. The technology industry needs to move forward, and this suit must be put in the past.

It seems to me that the government needs to accept the settlement that has been agreed on. Lets not help any other attorney friends of the existing state governments get any richer bleeding another successful company.

Sincerely,
